

OUTREACH MEETINGS

MDOT is working to update their nonmotorized transportation plan for the Bay Region to: identify opportunities to enhance nonmotorized transportation, prioritize nonmotorized investment, and provide a vision for a nonmotorized network to guide public and private initiatives. EMCOG, working with MDOT is holding 4 outreach meetings throughout the 15-county region in 2017.

Regional, county and local government agencies, officials, staff, advocates, residents, etc. are invited to attend any one of the listed outreach meetings to:

- learn more about the project
- provide input related to regional priorities
- review the existing MDOT Bay Region non-motorized plan and identify existing and proposed non-motorize facilities to create the best interconnected non-motorized network within the MDOT Bay Region
- review Bay Region Bike + Trail Guide Maps

For more information about the project, meeting details, or if you can't make a meeting and would like to provide input, please visit
